SUMMARY

I'm an IT student at President University, currently focusing on Cyber Security. I'm really passionate about Web Development, mostly because I'm curious about how websites work, and I also love getting creative with graphic design. My goal is to combine these interests to create comprehensive web experiences, utilizing my own designs for a visually appealing front-end while applying what I've learned in cybersecurity to ensure everything runs safely on the back-end.

PROJECTS

Pet Shop Cashier Programmer <ul style="list-style-type: none">Developed a pet shop cashier program using the Java language in Apache NetBeans using Swing GUI. Implements Object Oriented Programming (OOP) principles and integrates a MySQL database to enhance user flexibility and ease of use.	Apr 2024 - May 2024
E-Commerce Gadget Mobile App Programmer, UI/UX <ul style="list-style-type: none">Developed an e-commerce Android app using Android Studio, integrating Firebase for product data storage and SQLite for local user account management. Designed the UI/UX of the application using Figma.	Sep 2024 - Dec 2024
Dorm & Campus Virtual Tour Front-End, Photographer <ul style="list-style-type: none">Capturing every spot on either campus or dorm to make sure we have a good visualization. Designed and developed an interactive virtual tour website.	Nov 2024 - Dec 2024
Website Security Risk Assessment Front-End <ul style="list-style-type: none">Develop a risk security assessment website based on the security framework Octave Allegro Using HTML and CSS	Jan 2025 - Feb 2025
P.T Square Gate One - Information Security System Untuk Malware Analysis Analyzer <ul style="list-style-type: none">Collaboration final project team with a P.T. Square Gate One to analyze real-world malware. Examined how the malware worked using static analysis (studying code without running it), dynamic analysis (observing behavior during execution), and reverse engineering (analyzing the code). Also investigate the infection vector & scope of attack, mitigation & remediation plan, and lastly, proposed ways to strengthen defense to prevent future incidents	Mar 2025 - May 2025

ORGANIZATIONAL/COMITTEE EXPRIENCES

Bancimo

Sep 2023 - May 2024

Supplier/Logistic

- Participated in a university-wide Economic Survival business simulation, developing and managing a real business from scratch. Contributed to Bancimo, a snacking business specializing in banana nuggets, cimol (Indonesian savory snacks), and mojito drinks. I contributed as part of the logistics team, managed inventory control, supply chain coordination, and timely resupply of raw materials to support production.

Planting 1000 Mangroves On Tldung Island

Jun 2024 - Jul 2024

Logistic

- Contributed to coastal ecosystem protection and environmental awareness by collaborating with local communities, and Pusat Budidaya dan Konservasi Laut(PBKL) to plant 1,000 mangroves. As the Logistics Coordinator, I managed all event preparations, ensuring timely procurement and organization of necessary supplies and equipment for the project's success.

SKILLS

Cyber

- Oracle VirtualBox
- Kali Linux
- Burpsuite

- Network Miner
- Wireshark
- Autopsy

- FlareVM
- Remnux

IT

- UI/UX
- HTML
- CSS
- JavaScript

- Java
- MySQL
- Node.js
- Vite

- TailwindCSS

Multimedia

- Wondershare Filmora
- Blender3D
- Canva

- Clip Studio Paint
- Figma

EDUCATION

High School Diploma

SMA Negeri 1 Majalengka

- Social Science

Jul 2019 - Jun 2022

Undergraduate Information Technology

President University

- Cyber Security
- GPA 3.75

Sep 2023 - Present

KADA (Korea ASEAN Digital Academy) Boothcamp

AKCF

- Full-Stack Web Development

Jun 2025 - Aug 2025

ADDITIONAL INFORMATION

- Languages:** Indonesian(Native), English(Intermediate)
- Certifications:** DET (Duolingo English Test) 110/160 Score
- Awards/Activities:**
