SUMMARY

I'm an IT student at President University, currently focusing on Cyber Security. I'm really passionate about Web Development, mostly because I'm curious about how websites work, and I also love getting creative with graphic design. My goal is to combine these interests to create comprehensive web experiences, utilizing my own designs for a visually appealing front-end while applying what I've learned in cybersecurity to ensure everything runs safely on the back-end.

PROJECTS

Pet Shop Cashier   Apr 2024 - May 2024
Programmer
- Developed a pet shop cashier program using the Java language in Apache NetBeans using Swing GUI. Implements Object Oriented Programming (OOP) principles and integrates a MySQL database to enhance user flexibility and ease of use.

E-Commerce Gadget Mobile App   Sep 2024 - Dec 2024
Programmer, UI/UX
- Developed an e-commerce Android app using Android Studio, integrating Firebase for product data storage and SQLite for local user account management. Designed the UI/UX of the application using Figma.

Dorm & Campus Virtual Tour   Nov 2024 - Dec 2024
Front-End, Photographer
- Capturing every spot on either campus or dorm to make sure we have a good visualization. Constructed an interactive virtual tour website.

Website Security Risk Assessment   Jan 2025 - Feb 2025
Front-End
- Built and designed a responsive risk security assessment website utilizing HTML and CSS, based on the OCTAVE Allegro security framework.

P.T Square Gate One - Information Security System Untuk   Mar 2025 - May 2025
Malware Analysis
Analyzer
- Collaboration final project team with a P.T. Square Gate One to analyze real-world malware. Examined how the malware worked using static analysis (studying code without running it), dynamic analysis (observing behavior during execution), and reverse engineering (analyzing the code). Also investigate the infection vector & scope of attack, mitigation & remediation plan, and lastly, proposed ways to strengthen defense to prevent future incidents

Random Post - Blog   Jun 2025 - Jul 2025
Programmer
- Created "Random Post," a full-stack blog platform, during my studies at KADA, marking my first hands-on experience in designing and implementing a RESTful API with Node.js, Express, and MongoDB. I successfully built a secure authentication system from scratch using Passport.js with JWT and Google OAuth and utilized React and Tailwind CSS to build a dynamic and responsive front-end.

ORGANIZATIONAL/COMITTEE EXPERIENCES

Bancimo
Supplier/Logistic

<div align="right">

Sep 2023 - May 2024
</div>

- Participated in a university-wide Economic Survival business simulation, developing and managing a real business from scratch. Contributed to Bancimo, a snacking business specializing in banana nuggets, cimol, and mojito drinks. I contributed as part of the logistics team, managed inventory control, supply chain coordination, and timely resupply of raw materials to support production.

Planting 1000 Mangroves On TIdung Island
Logistic

<div align="right">

Jun 2024 - Jul 2024
</div>

- Contributed to coastal ecosystem protection and environmental awareness by collaborating with local communities, and Pusat Budidaya dan Konservasi Laut(PBKL) to plant 1,000 mangroves. As the Logistics Coordinator, I managed all event preparations, ensuring timely procurement and organization of necessary supplies and equipment for the project's success.

SKILLS

Cyber
- Oracle VirtualBox
- Kali Linux
- Burpsuite
- Network Miner
- Wireshark
- Autopsy
- FlareVM
- Remnux

IT
- UI/UX
- HTML
- CSS
- JavaScript
- Java
- MySQL
- Node.js
- Vite
- TailwindCSS

Multimedia
- Wondershare Filmora
- Blender3D
- Canva
- Clip Studio Paint
- Figma

EDUCATIONS

High School Diploma
SMA Negeri 1 Majalengka

<div align="right">

Jul 2019 - Jun 2022
</div>

- Social Science

Undergraduate Information Technology
President University

<div align="right">

Sep 2023 - Present
</div>

- Cyber Security
- GPA 3.75

KADA (Korea ASEAN Digital Academy) Boothcamp
AKCF

<div align="right">

Jun 2025 - Aug 2025
</div>

- Full-Stack Web Development

ADDITIONAL INFORMATION

- **Languages:** Indonesian(Native), English(Intermediate)
- **Certifications:** DET (Duolingo English Test) 110/160 Score
